GEOSHACK CONSOLIDATES TWO NORTHEAST OHIO STORES INTO NEW STATE OF THE ART FACILITY

CLEVELAND, OHIO - July 11, 2008 – GeoShack is excited to announce the consolidation of our stores in Twinsburg and Canton, Ohio into a new state of the art facility in Stow, Ohio to better serve the Cleveland metro area and all of northeast Ohio.

Regis Brown, Vice-President Construction Sales Manager, states, “We’ve been in Ohio for over 30 years and decided it was time to upgrade our facilities. We now have a high-tech service center from which we will be able to provide quality, timely repairs. The Stow location has easy on/off access from all the major highways so we’re more convenient to our customers. I think our customers will be pleased with the improvements we’ve made.”

“Our new location will be a real benefit to all our customers”, said Dan O’Reilly, Survey Sales Manager. “It is conveniently located for the majority of our customer base in the Cleveland metro area. We can offer more advanced training classes and seminars for our survey and machine control customers and the repair center is also greatly improved with this move. We look forward to welcoming our customers to our new first-class facility.”

Visit our new location at:

883 Hampshire Road
Suite J
Stow, Ohio 44224
330-923-4GPS

GeoShack is the leading supplier of Topcon construction lasers, total stations, GPS, GIS, Robotic total stations, and Machine Control systems serving the construction, land survey, mining, landfill, and governmental markets. In addition, we represent Futtura, TDS, PLS, Schonstedt, and CST/Berger equipment. We also carry supplies and accessories such as paint, flagging, stakes, etc. We will continue to provide sales, service, and rentals at the new facility and our sales professionals can come to your location to serve your needs.

ABOUT GEOSHACK

GeoShack operates under the concept, “Everything for Jobsite Accuracy”. At each location, contractors and surveyors can find a wide selection of construction lasers, total stations, robotic instruments, GPS Survey systems, optical instruments, 2D & 3D machine control systems, software for a multitude of applications, and a complete line of supplies and accessories. GeoShack is the retail division of GeoShack North America, Inc., an organization with sales professionals, and technical service and support specialists in 16 major market areas in North America with over 120 employees.
